PMAG Exhibit: Lori Sokoluk and Susan Purney Mark

Visit the Pitt Meadows Art Gallery to see *From a Distance: Works in Correspondence*, featuring work by Lori Sokoluk and Susan Purney Mark. Running March 15 to April 27, this exhibition combines both textiles and painting in a collaborative project by both artists. Like written letters, Lori and Susan exchanged artwork back and forth across provinces and mediums. Learn more at pittmeadows.ca/pmag.

Do you Need a Permit for That?

Planning to build a deck, add a shed or make renovations? It is the property owner's responsibility to obtain a building permit from the City for a variety of projects prior to construction. Check the rules before building and ensure it's done right the first time. Learn more: pittmeadows.ca/permits.

Water Main Flushing

March 22 is World Water Day. Water main flushing is one of the ways the City maintains our clean drinking water. When water main flushing is happening in your neighbourhood, you may notice a temporary drop in water pressure, sediment or a discolouration in your water. The water is still safe to drink, but to correct problems with cloudy or turbid water, run your cold water for a few minutes until the water runs clear. Learn more about the City's water system including backflow prevention, water quality testing, and conservation at pittmeadows.ca/water.
