## Council this Month

### Road and Rail Improvements Project Update

The community was invited to attend the Pitt Meadows Road and Rail Improvements Project Spring Community Update in April. Four virtual information sessions were held to share updates and answer questions on the topics of rail track configuration and noise and vibration.

A summary of the information sessions and what was heard will be presented to Council and the community at an Engagement and Priorities Committee (EPC) meeting on May 4 at 7 p.m.

Ways to participate virtually:

- Tune-in to watch the EPC meeting live.
- Register to participate live using Zoom.
- Join the conversation live by phone (audio only).
- Submit written comments or questions to Council.
- Visit [pittmeadows.ca/councilmeetings](http://pittmeadows.ca/councilmeetings) for details.

The next stage of public engagement will occur in the fall, which will include the proposed design for the Harris Road underpass and information about the relocation of the heritage buildings. Learn more at [pittmeadows.ca/roadandrail](http://pittmeadows.ca/roadandrail).
