PROTECT YOURSELF FROM PARCEL THEFT

As more and more people shop on-line, thieves have discovered that snatching parcels from doorsteps is quick, easy and lucrative. Reduce the chance of thieves stealing your packages by:

- Sending packages to a secure location-review your retailers methods of delivery to determine if they have alternate deliver options or ask about signature delivery.
- Scheduling packages to arrive when you are home - work with the retailer to deliver on days you will be home. Many retailers have tracking apps or notifications that may allow you to delay or re-route packages.
- Considering the installation of a front door security camera- there is a vast array of camera options ranging from built-in spotlights, instant notification to two-way talk. Do your research before buying or entering into a contract.
- Posting a warning sign that states your property is under CCTV surveillance.
- Using an anti-theft alarm. There are smart mailbox parcel delivery boxes and smart locks available on the market.
